

## DRIVEWAY CROSSOVERS

- ✓ Protect your assets
- ✓ Cross over protectors are the best way to protect the driveway on your construction site against damage from vehicle access
- ✓ Many councils require cross over protectors under local laws.
- ✓ Check with your local council to avoid fines.
- ✓ Crossovers are placed on top of what is deemed to be the main driveway to the property.
- ✓ Made of hard wood and bound with hoop iron

**Made of 38mm Australian hardwood**

**2.7m wide x 4.8m long**

**Bound with galvanised hoop iron**
